Hari Jaiswal

AI and Data Engineering, Agile Project Management | M. Tech.- AI , ML from BITS Pilani
Pune, Maharashtra, India

Summary

With over 20 years of experience at Tata Consultancy Services, I contribute to driving data engineering initiatives and implementing innovative AI solutions. My current role focuses on leveraging generative AI and machine learning to enhance operational efficiencies while ensuring effective data governance. By championing Agile methodologies and DevOps practices, I support seamless collaboration and project execution across teams.

My roles also includes extensive coaching and training on Agile, Scrum, and DevOps, where I facilitated the transition of diverse teams to Agile frameworks, increasing organizational maturity and competency. Passionate about teamwork and innovation, I aim to empower teams with the tools and strategies needed to excel in an evolving technological landscape.

Experience

Tata Consultancy Services

19 years 5 months

AI and Data Engineering

November 2023 - Present (2 years 4 months)

Pune

I have successfully driven data engineering projects while managing teams to implement innovative AI solutions.

- Developed and executed strategies for effective data governance and management of data engineering teams.
- Leveraged AI and machine learning to enhance operational efficiencies and project outcomes.
- Championed Agile methodologies and DevOps practices to improve collaboration and project execution.

Agile and Devops Coach, Trainer, Scrum Master

July 2013 - October 2023 (10 years 4 months)

My Responsibilities include :-

- Providing extensive training on Agile, Scrum that lead to wide adoption of Agile methodologies, in turn increasing competency levels of associates, increasing Agile Maturity.
 - Extensive Training/Coaching to teams on Agile Values and Principles, Scrum, XP practices, CI/CD, DevOps.
 - Experience of working with diverse teams including teams which are completely new to Agile. Also have transitioned teams from waterfall to agile.
 - Worked with other Scrum Masters to increase the effectiveness of Scrum in the group/organisation.
 - Coordinated multiple teams using Nexus Framework. Played the role of Nexus Scrum master (NIT SM) in Nexus Integration Team (NIT)
 - Interacted with diverse stakeholders like Line Managers, Product Owners, Business Analyst, Onshore coordinators, Scrum teams, Architects
 - Proactively Identifying and sensitizing/reporting risks in projects to Teams/ Leadership.
 - Periodically checking on Agile Teams , helping them stay on track with Agile Principles/Scrum Framework and helping them improvise as needed.
 - Done one to one coaching/mentoring to Teams/Scrum Masters/Individual Team members.
- Felicitation of Scrum events like Sprint Planning, Daily Scrum, Sprint Review, Retrospective and as requested/needed.
- Regular Interaction with PO. Involved in activities like Product Backlog refinement, story writing sessions. Ensuring PO understands how to arrange the backlog and explaining effective product backlog management techniques.
 - Collaboration sessions with SMEs/Other teams, facilitating clarification on stories from BA, PO, SMEs, Other Teams. Facilitating the team during design/architecture with lead architects.
 - Interfacing/working with external/Internal Release Teams for Product Increment (PI) release.

- Removing Impediments to the Development Team's progress.
- Experience of Working in DevOps environment with exposure to entire CI/CD Pipeline.
