
HARI JAISWAL

From AI curiosity to AI capability — shipped, governed, and measurable.

AI/ML Engineering & Program Leader | Agentic AI, RAG & LLMOps | Production AI Delivery | M.Tech AI/ML, BITS Pilani

Pune, India | +91-8766534870 | hari.jaiswal.india@gmail.com

LinkedIn: [linkedin.com/in/harijaiswal](https://www.linkedin.com/in/harijaiswal) | Portfolio: harijaiswal29.github.io/portfolio

PROFESSIONAL SUMMARY

AI/ML engineering and program leader with **20+ years** in enterprise IT and genuine, hands-on technical depth — an M.Tech in AI/ML from BITS Pilani plus production-quality work across Retrieval-Augmented Generation (RAG), Model Context Protocol (MCP), agentic and Multi-Agent Systems, and MLOps/LLMOps. Currently leads AI engineering and transformation for a **70+ associate** organization at Tata Consultancy Services (TCS), building and deploying RAG, MCP, and LLM-based solutions and embedding evaluation, observability, and cost-control standards that take AI from prototype to production. Combines this with a decade of large-scale Agile and DevOps delivery leadership for **Fortune 500** clients — technical program management, cross-team coordination, and metrics-driven delivery — to ship AI/ML products at scale across healthcare, banking, and hi-tech.

SKILLS

AI & Machine Learning: Generative AI, Agentic AI, Multi-Agent Systems, Large Language Models (LLMs), Retrieval-Augmented Generation (RAG), Model Context Protocol (MCP), Reinforcement Learning (RL), Natural Language Processing (NLP), Prompt Engineering, Deep Learning

AI in Production & LLMOps: LLM Evaluation Frameworks (faithfulness & quality scoring, evaluation-as-CI), LLM Observability & Tracing, AI Cost Optimization (model routing, token budgeting), Guardrails & Responsible AI, Drift Detection, Vector Databases, Hybrid Search (BM25 + vector), Model Versioning & Reproducibility

ML Engineering & MLOps: Python, TensorFlow, PyTorch, Keras, scikit-learn, MLflow, DVC, Docker, FastAPI, Streamlit, CI/CD Pipelines, Q-Learning, Deep Q-Networks (DQN)

AI Tooling: Claude Code, GitHub Copilot

AI Program & Delivery Leadership: Technical Program Management, AI/ML Product Delivery, Cross-functional Program Delivery, Roadmapping & Use-Case Prioritization, Stakeholder Management, AI Governance & Responsible AI, Objectives and Key Results (OKRs)

Agile & Delivery Frameworks: Scrum, Scaled Agile Framework (SAFe), Kanban, DevOps, Scrum of Scrums, Nexus, Test-Driven Development (TDD), Behavior-Driven Development (BDD), CI/CD, JIRA, Confluence, Rally

Domain: Healthcare (UnitedHealth Group / Optum), Banking & Finance (Deutsche Bank, Vanguard), Hi-Tech (Microsoft)

KEY ACHIEVEMENTS

- Leading an enterprise-wide AI transformation for **70+ associates** at TCS — designing and executing comprehensive AI training and governance programs to uplift organizational AI readiness and drive adoption.
- Transformed Agile capabilities for an **80+ person** organization, coaching **20 cross-functional** teams to a **30%** sprint velocity improvement and **25%** cycle time reduction.
- Awarded the **Jury's Choice** at the TCS AI Hackathon 2025 (**top 10** ideas organization-wide), demonstrating applied AI innovation.
- Completed **M.Tech in AI/ML** from BITS Pilani with a dissertation on Autonomous Tool Discovery using Reinforcement Learning (RL) and the Model Context Protocol (MCP).
- Trained **100+ professionals** in Agile, Scrum, and DevOps through workshops, seminars, and hands-on coaching.

- **19+ years** with TCS serving **Fortune 500** clients — Microsoft, Vanguard, Deutsche Bank, and UnitedHealth Group — across healthcare, banking, and hi-tech.

PROFESSIONAL EXPERIENCE

Tata Consultancy Services (TCS)

October 2006 to Present (19+ years)

AI Transformation Lead

September 2025 – Present

Client: UnitedHealth Group / Optum (Healthcare) | AI transformation for 70+ associates

- Spearheading an enterprise-wide AI transformation for **70+ associates**, owning the strategic vision for organizational AI adoption and maturity uplift.
- Designed and rolled out a comprehensive AI training program spanning generative AI, prompt engineering, agentic AI tools (Claude Code), and responsible AI practices, reaching 70+ associates.
- Identified and prioritized **40+ high-impact** AI use cases across business functions, converting them into actionable adoption roadmaps — including Multi-Agent System architectures for complex workflow automation.
- Defined enterprise AI governance and quality standards — including model evaluation criteria and output guardrails, LLM observability and usage monitoring, and cost controls such as model routing and token budgeting — to ensure responsible, measurable, and cost-effective AI adoption.
- Reported AI adoption metrics — training completion, tool usage, and a **30% productivity** improvement — directly to senior leadership, demonstrating measurable return on investment (ROI).
- Awarded the **Jury's Choice** at the TCS AI Hackathon 2025 (**top 10** ideas organization-wide) for applied AI innovation.
- Hands-on practitioner of Claude Code and Multi-Agent Systems architecture, bringing practical depth to credibly guide teams on autonomous agents, tool orchestration, and AI-assisted software engineering.

AI and Data Engineering Lead

November 2023 – August 2025

Client: UnitedHealth Group / Optum (Healthcare) | AI Engineering

- Built and deployed Retrieval-Augmented Generation (RAG), Model Context Protocol (MCP), and LLM-based solutions for enterprise use cases, reducing manual effort by **20%**.
- Established evaluation and monitoring practices for deployed AI solutions — output quality and guardrail checks alongside pipeline observability and drift detection — to keep models reliable in production.
- Defined AI-first data governance strategies that enabled multiple teams to operationalize ML models for measurable efficiency gains.
- Integrated AI coding assistants (Claude Code, GitHub Copilot) into development workflows, accelerating delivery and cutting cycle time by **30%**.
- Championed AI-aware Agile practices, embedding AI tools and ML frameworks into delivery workflows to improve speed and code quality.
- *Key technologies:* Python, RAG, MCP, LLMs, FastAPI, Streamlit, MLflow, Docker.

Enterprise Transformation Coach — Agile & DevOps

April 2019 – October 2023

Client: Deutsche Bank (Banking) | 80+ person organization, 20 cross-functional teams

- Spearheaded an enterprise-wide Agile transformation for an **80+ person** organization, coaching 20 teams through waterfall-to-Agile transitions with measurable outcomes: **30% sprint velocity** improvement and **25% cycle time** reduction.
- Designed a data-driven Agile maturity assessment framework (surveys, heatmaps, team diagnostics) — the same methodology now directly applicable to AI maturity assessment.
- Led Scrum of Scrums and Nexus integration across multiple parallel workstreams, systematically resolving cross-team dependencies to accelerate integrated delivery.
- Trained **100+ professionals** through workshops, seminars, and 1:1 coaching on Agile, Scrum, DevOps, and Continuous Integration/Continuous Deployment (CI/CD).
- Partnered with senior stakeholders to align transformation initiatives with business objectives, earning recognition from senior leadership for program delivery excellence.

Scrum Master / Agile Project Manager

March 2011 – March 2019

Clients: Russell Investments, Vanguard (Financial Services)

- Managed Scrum delivery for multiple teams (7–9 members each), facilitating all ceremonies and driving continuous improvement through retrospectives and metrics analysis.
- Coordinated cross-geography delivery between India and USA teams, managing technical dependencies across distributed environments.
- Implemented comprehensive Agile metrics and reporting (burn-down charts, velocity tracking, sprint reports), giving leadership transparency and actionable insight.

Development Lead

October 2006 – February 2011

Client: Microsoft (Hi-Tech)

- Led a **12-member** engineering team designing and delivering web-based advertising campaign solutions for Fortune 500 companies, shipping **8 major campaigns** across Pune and USA teams.

Prior Experience

Sr. System Analyst — Nihilent Technologies (Jul 2004 – Sep 2006) | System Development Officer — AESSeal India (Jul 2003 – Jul 2004) | Developer Analyst — Resonance (Feb 2002 – Jul 2003)

AI/ML PORTFOLIO PROJECTS

GitHub Portfolio: [harijaiswal29.github.io/portfolio](https://github.com/harijaiswal29)

- **Autonomous Tool Discovery System (M.Tech Dissertation):** Pioneered autonomous tool discovery using Reinforcement Learning (RL) and the Model Context Protocol (MCP), achieving **50.33% task completion (7.5% improvement)** over baseline). Technologies: Q-Learning, Deep Q-Networks (DQN), FastAPI, NLP, NetworkX.
- **RAG Financial Chatbot (Enterprise AI Application):** Built a Retrieval-Augmented Generation chatbot for financial Q&A with chunk merging, adaptive retrieval, BM25 hybrid search, and output guardrails; evaluated retrieval quality and answer faithfulness to validate production readiness. Technologies: Streamlit, Vector Databases, LLMs.
- **MLOps Pipelines (Production ML Infrastructure):** Two production-grade pipelines — (1) DVC + Azure Blob Storage for model versioning and reproducibility; (2) a Fashion-MNIST pipeline with automated exploratory data analysis (EDA), LIME/SHAP explainability, Optuna hyperparameter optimization, MLflow monitoring, and drift detection.

EDUCATION

M.Tech, Artificial Intelligence and Machine Learning — BITS Pilani (2023 – 2025)

Dissertation: *Autonomous Tool Discovery using Reinforcement Learning (RL) and the Model Context Protocol (MCP)*.

Master of Computer Applications (MCA) — IGNOU.

PG Diploma in Advanced Computing (PG-DAC) — C-DAC, Pune.

Bachelor of Computer Applications (BCA) — MCRP University.

CERTIFICATIONS

AI & Cloud: Generative AI Fundamentals; Introduction to Large Language Models; Responsible AI: Applying AI Principles — Google Cloud. Cloud Computing Foundation — EXIN.

Agile & Delivery: Certified Scrum Master (CSM), Certified Scrum Professional (CSP), Certified Scrum Product Owner (CSPO) — Scrum Alliance. Certified Scrum@Scale Practitioner — Scrum Inc. Objectives and Key Results (OKRs) — Project Management Institute (PMI).

DevOps & IT Service Management: DevOps Foundation — DevOps Institute. Information Technology Infrastructure Library (ITIL) — APMG International.
